A R C H I T E C T

Kwamba, Suleja, Niger State, Nigeria • +234 815 710 6675 • web247keys@gmail.com

PROFESSIONAL PROFILE

A passionate and results-driven architect with 5+ years of progressive experience in architectural design, project coordination, and sustainable construction. Adept at translating client visions into compelling design solutions — from freehand schematics to construction documentation. Proven track record of leading multidisciplinary teams, ensuring regulatory compliance, and delivering projects of significant scale and complexity. Combines technical expertise with strong interpersonal skills and a commitment to excellence at every project stage.

PROFESSIONAL EXPERIENCE

Architect | Exquisite Architecture & Construction (EXACON) — Niger State, Nigeria

October 2024 – April 2025

- Provided end-to-end architectural design services for high-end public and commercial construction projects, consistently meeting client expectations for quality and aesthetics.
- Designed the auditorium for HOFESH Ministries International, managing all design and construction coordination responsibilities.
- Collaborated closely with design consultants, subcontractors, and clients to ensure smooth project delivery within scope and timelines.
- Led projects from initial freehand schematic design presentations through to construction documentation and site supervision.
- Developed conceptual drawings, presentation materials, and detailed project timelines, communicating all critical deliverables to stakeholders.
- Championed sustainable development and advised on the incorporation of biophilic design principles in built environments.
- Maintained strong professional relationships with clients, consultants, and regulatory authorities.

Intern Architect | JANDA Designs & Global Concepts — Minna, Niger State, Nigeria

March 2021 – September 2021

- Participated actively in the conceptualisation and development of diverse design projects.
- Adhered to established professional standards for project production and documentation.
- Prepared, coordinated, and presented design documentation and presentation materials to project teams.
- Liaised with external consultants and subcontractors to ensure design intent was maintained during delivery.
- Handled technical detailing and production of construction documents.
- Delivered regular project update communications to management and project teams.

EDUCATION
